

## Lead Data By Provider

### Report Specifications

This is a legislatively mandated report (PA 098-0690, Sec.6.3) to " - - - prepare and deliver a report to each health care provider who has rendered services to children receiving benefits from the Department of Healthcare and Family Services. The report shall contain the aggregate number of children receiving benefits from the Department of Healthcare and Family Services to whom the provider has provided services, the number and percentage of children tested for lead poisoning, and the number and percentage of children having an elevated blood lead level."

The data contained herein report the number of children  $\leq 6$  years of age to whom each provider has delivered an EPSDT visit; the number of those children receiving a blood lead screen, regardless of the provider who conducted the blood lead screen; the number of children with known or unknown blood lead screen results; and the number of children with an elevated blood lead level (EBLL) ( $\geq 10$   $\mu\text{g}/\text{dL}$ ).

Provides two percentages:

- **Blood Lead Screening Percentage:** The number of children given an EPSDT visit by a provider (denominator) who were also given a blood lead screen (numerator), regardless of the provider who conducted the lead screen.
- **Elevated Blood Lead Level Percentage:** The number of children given a blood lead screen and who have a blood lead level result available using DPH data (denominator) having an EBLL (numerator).

Blood lead screen data are from HFS claims (including rejected claims, excluding voided claims) and IDPH lead data. Blood lead results data are available only from IDPH. For consistency with other reporting, EPSDT visits are defined using CMS-416 coding specifications identifying initial or periodic screens furnished with age restrictions applied ( $\leq 6$  years) for this report. The measurement period is the calendar year. Age is calculated as of December 31 of the measurement period. Providers are identified using their NPI. Providers having more than one NPI are identified using the minimum NPI number assigned to them.
