General Contract Monitoring

Health Risk Assessment (HRA) / Health Risk Screening (HRS) Completion for Returning Enrollees

This policy provides clarification of HFS' policy for completing HRAs/HRSs for enrollees who have disenrolled from and then returned to a health plan.

A new HRA/HRS is not required for enrollees who have been disenrolled from a health plan for less than ninety (90) days, provided that the health plan confirms there has been no change to the member's health status or needs.

A new HRA/HRS is required for enrollees who have been disenrolled from a health plan for more than ninety (90) days.

Reassessments outside the circumstances described above should be completed as necessary and Care Plans updated per individual contract requirements. Face-to-face requirements remain the same per the contract language.
