

Child Support (Calculator) Estimator

The Illinois Child Support Estimator is designed to provide a general idea of a child support amount based on Illinois child support guidelines (750 ILCS 5/505) and the information entered regarding specific circumstances. This estimator is for informational purposes only. The Department of Healthcare and Family Services–Division of Child Support Services assumes no responsibility for the accuracy of the child support amount determined based upon the usage of this estimator.

- The child support amount that you determine may not be the same amount that the Department or the court may establish.
- This amount is meant to provide an estimate and is not a guarantee of the amount of child support to be awarded.
- Many factors affect the amount of child support, and each situation is different.
- The child support amount may be higher or lower depending on the income figures you use in this estimator.

Parents

This Estimator is provided so that a parent can estimate how much child support may be ordered in their case through a series of questions. Accurately answer each question as thoroughly as possible for both parents. The Estimator is designed to provide an estimate of the child support amount in accordance with Illinois child support guidelines based on the information entered. The accuracy of the result is dependent upon accuracy of the income and deduction amounts entered.
