

State of Illinois Department of Healthcare and Family Services
Hospital Rate Reform Initiative
Provider Cost Calculation Review Instructions

Overview

As part of the Illinois Medicaid Hospital Rate Reform Initiative, the Department of Healthcare and Family Services (the "Department") is estimating the cost of SFY 2008 and 2009 Medicaid fee-for-service inpatient and outpatient claims data. The Department will use the following approach to estimate claim costs:

- Extract total costs, charges and patient days, by reported cost center, from each hospital's Form CMS 2552 Medicare Cost Report with reporting dates overlapping SFY 2008 and 2009 (July 1, 2007 through June 30, 2009).
- For each hospital, align cost centers reported in Worksheets B Part I and C Part I into 9 Standard Routine Cost Centers and 35 Standard Ancillary Cost Centers. Exclude special purpose cost centers, non-reimbursable cost centers and nursing facility cost centers.
- For each hospital, calculate the average cost per patient day for each Standard Routine Cost Center and cost-to-charge ratio ("CCR") for each Standard Ancillary Cost Center.
- Map each revenue code in the Medicaid claims detail data to a Standard Cost Center. Exclude non-allowable revenue codes (per the Department's Hospital Handbook) and professional services and ambulance revenue codes (paid outside of the inpatient and outpatient payment systems).
- Using the revenue code crosswalk, assign the appropriate routine cost per patient day or ancillary CCR to each line in each claim record (based on the crosswalk between each Standard Cost Center and revenue code). Outpatient claims will only use ancillary CCRs.
- For ancillary revenue codes, if the mapped Standard Ancillary Cost Center for a provider is not available, assign the provider-specific aggregate ancillary CCR as a default.
- For routine revenue codes (inpatient only), if the mapped Standard Routine Cost Center for a provider is not available, assign an alternative Standard Routine Cost Center using a hierarchical approach. If the Coronary Care Unit, Burn Intensive Care Unit, Surgical Intensive Care Unit and Neonatal ICU cost centers are not available, assign the Intensive Care Unit cost center. If the Subprovider or Nursery cost centers are not available, assign the Adult and Pediatric cost center.

Provider Cost Calculation Review Instructions

- Estimate the cost of routine service lines in each claim by multiplying the number of patient days by the appropriate routine average cost per patient day (inpatient claims only).
- Estimate the cost of ancillary service lines in each claim by multiplying the covered charges (submitted charges less non-covered charges) by the appropriate ancillary CCR.
- Calculate the total cost of each claim by summing the detail line costs within the claim. Inpatient claims will contain both routine and ancillary costs, and outpatient claims will contain ancillary costs only.

This approach generally follows Medicare's cost apportionment methodology used in the Medicare cost report. See page 5 for an example inpatient claim cost calculation. See also page 6 for a list of the Standard Routine and Ancillary Cost Centers.

Provider Feedback

The Department would like your hospital to review the following cost calculation assumptions in this packet:

1. *Cost Center Alignment (example on page 7):* As described previously, for purposes of estimating costs consistently across all providers, we have established 9 Standard Routine Cost Centers and 35 Standard Ancillary Cost Centers (see page 6). We have aligned the costs reported in your Medicare cost report to one or more of these 44 Standard Cost Centers. See page 7 for an example alignment. *Your provider-specific alignment file will be sent separately by the Department (described at the end of these instructions).*

Once you obtain your provider-specific alignment file, please review the alignment between the cost centers reported in your Medicare Cost Report and the Standard Cost Centers. If a reported cost center has been improperly aligned to a Standard Cost Center, please identify the reported cost center number and description and the appropriate Standard Cost Center. You may need to conduct this review in conjunction with your review of the revenue code crosswalks (described next).

2. *Revenue Code Crosswalk – Inpatient (Page 8):* Please review the statewide crosswalk between Standard Cost Centers and the revenue codes in the inpatient claims data. If this statewide crosswalk does not properly align each revenue code to the cost centers in

State of Illinois Department of Healthcare and Family Services

your hospital's Medicare Cost Report, please identify the revenue code and the appropriate Standard Cost Center.

3. *Revenue Code Crosswalk – Outpatient (Page 27)*: Please review the statewide crosswalk between Standard Cost Centers and the revenue codes in the outpatient claims data used for costing purposes. If this statewide crosswalk does not properly align each revenue code to the cost centers in your hospital's Medicare Cost Report, please identify the revenue code and the appropriate Standard Cost Center.

Provider Cost Calculation Review Instructions

Please provide feedback regarding the cost assumptions by returning to the website <http://hfs.illinois.gov/hospitalratereform/comments> and submitting your comments. The Department will incorporate your feedback into the claim cost calculation to the extent possible. However, to incorporate your input you must respond to the Department by **Friday, July 29th, 2011**.

For additional background on the Hospital Rate Reform Initiative, please see the Department's webpage at: <http://hfs.illinois.gov/hospitalratereform>.
