## PURPOSE AND BACKGROUND

The purpose of this addendum is to provide a standardized net income conversion table updated for 2020 tax rates. The updated table is contained at the end of this document. This addendum also documents the changes from 2019 to 2020.

### BACKGROUND

State statute (750 ILCS 5/505) directs the Illinois Department of Healthcare and Family Services (HFS) to develop and promulgate a standardized net income conversion table that computes net income by deducting the standardized tax amount from gross income. The provision for the standardized net income conversion table is shown below. It essentially provides that HFS can calculate the conversion table using withholding or estimated payments. Since its inception in 2017, the income conversion table uses the federal income withholding formula published by the IRS<sup>1</sup> and the Illinois withholding formula published by the Illinois Department of Revenue.<sup>2</sup>

#### Excerpt of State Statute (750 ILCS 5/505(C) and (D) Directing HFS to Develop Standardized Net Income Conversion Table

(C) As used in this Section, "standardized tax amount" means the total of federal and state income taxes for a single person claiming the standard tax deduction, one personal exemption, and the applicable number of dependency exemptions for the minor child or children of the parties, and Social Security and Medicare tax calculated at the Federal Insurance Contributions Act rate.

(I) Unless a court has determined otherwise or the parties otherwise agree, the party with the majority of parenting time shall be deemed entitled to claim the dependency exemption for the parties' minor child.

(II) The Illinois Department of Healthcare and Family Services shall promulgate a standardized net income conversion table that computes net income by deducting the standardized tax amount from gross income.

(D) As used in this Section, "individualized tax amount" means the aggregate of the following taxes:

(I) federal income tax (properly calculated withholding or estimated payments);

(II) State income tax (properly calculated withholding or estimated payments); and

(III) Social Security or self-employment tax, if applicable (or, if none, mandatory retirement contributions required by law or as a condition of employment) and Medicare tax calculated at the Federal Insurance Contributions Act rate.

(E) In lieu of a standardized tax amount, a determination of an individualized tax amount may be made under items (I), (II), or (III) below. If an individualized tax amount determination is made under this subparagraph (E)....

## FEDERAL TAX CHANGES IN 2020

There were no statutory changes to federal tax rates from 2019 to 2020. However, the IRS made small inflationary changes to the income brackets and the value of the allowances. Specifically, the monthly

<sup>1</sup> For example for the 2017 table, federal income tax withholding was determined using U.S. Department of Treasury Internal Revenue Service. (2016). *Circular E: Employer's Tax Guide, Publication 15 for use in 2017*. <https://www.irs.gov/pub/irs-pdf/p15.pdf>.

<sup>2</sup> For example for the 2017 table, State income tax withholding was determined using Illinois Department of Revenue. (2016) *Form IL-W-5: Employee's and other Payee's Illinois Withholding Allowance Certificate and Instructions*. Retrieved from <http://www.revenue.state.il.us/taxforms/withholding/il-700-t.pdf>.

allowance increased from \$350 per month in 2019 to \$358 per month in 2020. These changes are noted in the Publication 15 series on Federal Income Tax Withholding Methods, which is discussed in more detail later. In addition, the IRS changed the W-4, but still allows use of the 2019 W-4 as well as the W-4 from earlier years.

In all, the IRS changes appear to complete the gradual transitions that began in 2018 and continued to 2019 to simplify forms and instructions to comport with The Tax Cuts and Jobs Act of 2017 (P.L. 115-97). The law became effective January 1, 2018. The major change from the law pertinent to child support was the elimination of the exemption for child dependents. The IRS did not make changes to the 2018 W-4 immediately to alleviate the burden it would have created among employers and employees to complete and file. Rather, changes were made to the withholding formulas immediately and the W-4 form was changed in 2019 and again in 2020.

In 2020, employees have the option to continue using older W-4 forms and the IRS have developed different withholding formulas to accommodate the differences between the 2020 IRS W-4 form and the IRS W-4 form from earlier years.

---

#### FEDERAL TAXES: IRS W-4

The IRS significantly redesigned the W-4 form in 2020,<sup>3</sup> but the IRS does not require employees who have submitted Form W-4 in any year before 2020 to submit a new form merely because of the redesign. Instead, as mentioned earlier, the IRS has developed different withholding formulas for the 2020 W-4 form and the W-4 form from earlier years.

For simplicity, it is assumed that each party continues to use the 2019 IRS W-4 form as described in the *2019 Addendum to the Illinois Schedule of Basic Obligations and Standardized Net Income Table*.<sup>4</sup> The 2019 assumptions are that the parent with a duty to support (whom is called the “parent without the majority of parenting time” for the 2020 standardized net income conversion table) claims one allowance for self and the recipient parent (whom is called the “parent with the majority of parenting time for the 2020 standardized net income conversion table) claims two allowances (for self and head of household) regardless of the number of children. It is assumed that each parent does not: have multiple jobs, have a spouse who works, have other income, adjust for the child tax credit, have other expected deductions beyond the standard deduction, and exercise the option for extra withholding. These assumptions are consistent with earlier versions of the income conversion table.

As explained in the *2019 Addendum*, the child tax credit was not included in the 2017, 2018, and 2019 conversion table. The 2019 IRS W-4 worksheet allotted four allowances for each child of a single or married filing separately tax filer with a total income up to \$71,201 per year for the child tax credit. As noted in the *2019 Addendum*, four allowances is an unreasonable deduction for a low-income party because a low-income party often is not eligible or only partially eligible for the child tax credit. Strict

<sup>4</sup> See Venohr, Jane. (March 11, 2019). *2019 Addendum to the Illinois Schedule of Basic Obligations and Standardized Net Income Table*. [file:///F:/1\\_1\\_march1/Illinois/2020/Posted\\_on\\_website/2019Addendum\\_Basic\\_Obligations.pdf](file:///F:/1_1_march1/Illinois/2020/Posted_on_website/2019Addendum_Basic_Obligations.pdf).

application of the IRS W-4 worksheet works best for those who have a good estimate of their annual income. Estimating annual income accurately is more difficult for those who work at hourly wage, have inconsistent hours from week to week, realize no compensation if they skip work because of a personal illness or an ill child, or change employment over the course of a year.

The child tax credit is no longer addressed in a worksheet for the 2020 W-4 form; however, Step 3 of the 2020 W-4 form provides for an adjustment for the child tax credit for annual incomes of \$200,000 per year or less. This produces the same issue for low-income workers who are often not eligible or only partially eligible for the child tax credit as it did in 2019. Strict application of the 2020 W-4 form also would produce a precipitous decrease in after-tax income between annual incomes of \$200,000 and \$200,001 (which is around \$16,666 to \$16,667 month). In addition to the simplicity and consistency reasons, this precipitous drop at annual incomes of \$200,000 is another reason that the 2019 W-4 assumptions are retained.

---

#### FEDERAL TAXES: IRS WITHHOLDING FORMULA

For 2020, the Federal Internal Revenue Services (IRS) made changes to the Publication 15 series that contain federal income tax withholding formulas and instructions. The Publication 15 series includes

- *IRS Publication 15: Circular E, Employer's Tax Guide: 2020*,<sup>5</sup>
- *IRS Publication 15-A: Employer's Supplemental Tax Guide: 2020*,<sup>6</sup> and
- *IRS Publication 15-T: Federal Income Tax Withholding Methods: 2020*.<sup>7</sup>

IRS Publication 15 identifies who are to be considered as employees and wages, other compensation subject to income withholding, how to deposit taxes and discusses other issues. IRS Publication 15-A provides more detail on who is an employee (*e.g.*, discerning employees from independent contractors) and addresses many special circumstances (*e.g.*, religious exemptions and sick pay reporting). IRS Publication 15-T is a new publication. It describes how to figure the amount of withholding.

The IRS now offers six options for computing taxes and instructs employers to use the method that best suits their payroll system and employees.

The six options are each summarized below followed by a table comparing the six options.

1. ***Percentage method tables for automated payroll systems*** that work for Forms W-4 from 2019 or earlier or the 2020 W-4 form. It provides percentage tables based on gross income and deducts \$8,600 per year for any taxpayer whose filing status is other than married filing jointly when there is a 2020 W-4 filed. If the employee has not submitted a 2020 W-4, \$4,300 per year for each allowance claimed on the employee's most recent W-4 form is subtracted. The percentage tables are based on annual income and different tables are provided for married filing jointly, single or married filing separately, and head of household.

<sup>6</sup> Retrieved from <https://www.irs.gov/pub/irs-pdf/p15a.pdf> .

<sup>7</sup> Retrieved from <https://www.irs.gov/pub/irs-pdf/p15t.pdf> .

2. ***Wage bracket method tables for manual payroll systems with forms W-4 from 2020 or later*** consist of wage bracket tables for married filed jointly, head of household, and single or married filed separately up to adjusted wage amounts of \$8,330 per month. The tables are for daily, weekly, biweekly, semimonthly, and monthly payroll periods.
3. ***Wage bracket method tables for manual payroll systems with forms W-4 from 2019 or earlier*** consist of separate wage bracket tables for married and single tax filers. There is no table for head of household. The tables are for daily, weekly, biweekly, semimonthly, and monthly payroll periods. The highest monthly income considered for the single taxpayer is \$8,410 per month.
4. ***Percentage method tables for manual payrolls systems with Forms W-4 from 2020 or later*** are provided separately for monthly and daily payrolls and other frequencies. Different tables are provided for married filing jointly, single or married filing separately, and head of household. There is no allowance in the calculation, but there is an adjustment for tax credits from Step 3 of the employee's Form W-4.
5. ***Percentage method tables for manual payrolls systems with Forms W-4 from 2019 or earlier*** are provided separately for monthly and daily payrolls and other frequencies. Different tables are provided for married filing jointly and single or married filing separately. There is no head of household table. This method does contain a monthly allowance is \$358 and tax filers are instructed to take an additional monthly allowance if they are a head of household on the 2019 W-4 form.
6. ***Alternative method for figuring withholding*** provides for the use of various methods including alternative methods or tables developed by the employer as long as they fall within an acceptable range of tolerance (*e.g.*, not more than a difference of \$46 plus 1% of the excess over \$1,000 for those where the annual percentage method yields a tax liability of \$1,000 or more).

	Method 1	Method 2	Method 3	Method 4	Method 5	Method 6
<b>W-4 Year</b>	2019 and earlier and 2020 or later	2020 or later	2019 or earlier	2020 or later	2019 or earlier	Option of employer <sup>8</sup>
<b>Subtraction from income</b>	Depends on year of W-4	None, standard deduction built into tables	Allowances built into tables	None, standard deduction built into tables	\$358 per month for each allowance claimed on W-4	
<b>Percentage method tables or wage bracket tables</b>	Percentage method tables	Wage bracket tables	Wage bracket tables	Percentage method tables	Percentage method tables	
<b>Highest income considered in tables</b>	No limit	\$8,330 per month	\$8,410 per month	No limit	No limit	
<b>Frequency of payroll</b>	Annual	Monthly and others	Monthly and others	Monthly and others	Monthly and others	
<b>Filing status considered</b>						
<ul style="list-style-type: none"> <li>• <b>Single</b> <input checked="" type="checkbox"/></li> <li>• <b>Married filing jointly</b> <input checked="" type="checkbox"/></li> <li>• <b>Married filing separately</b> <input checked="" type="checkbox"/> <input checked="" type="checkbox"/></li> <li>• <b>Head of Household</b> <input type="checkbox"/> <input type="checkbox"/></li> </ul>	<input checked="" type="checkbox"/> <input checked="" type="checkbox"/> <input checked="" type="checkbox"/> <input checked="" type="checkbox"/>	<input checked="" type="checkbox"/> <input checked="" type="checkbox"/> <input checked="" type="checkbox"/> <input checked="" type="checkbox"/>	<input checked="" type="checkbox"/> <input checked="" type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/>	<input checked="" type="checkbox"/> <input checked="" type="checkbox"/> <input checked="" type="checkbox"/> <input checked="" type="checkbox"/>	<input checked="" type="checkbox"/> <input checked="" type="checkbox"/> <input type="checkbox"/> <input type="checkbox"/>	

Methods 1, 3, 5 and 6 are compatible with the use of the 2019 IRS W-4 form. Method 5 is most consistent with the table used for the 2019 Income Conversion Table. Method 1 applies to annual income while the income conversion table is a monthly amount. The highest income considered in Method 3 is below that considered in the income conversion table range. Method 6 is not specific enough.

---

#### CHANGES TO FICA

The only change in the FICA was the social security wage base limit increased from \$132,900 in 2019 to \$137,700 in 2020. This has the impact of small decreases in after-tax income for monthly gross incomes of \$11,075 (\$132,900 per year) to \$11,475 (\$137,700 per year).

---

<sup>8</sup> The employer has discretion as long as the amount is within the tolerance range specified in IRS regulation.

## CHANGES TO STATE TAXES

Illinois made some changes to its withholding income tax for the 2020 tax year.<sup>9</sup> Only the change in personal exemption amount is pertinent to the income conversion table. The annual exemption amount increased from \$2,275 in 2019 to \$2,325 in 2020. The State income tax remains at 4.95 percent.<sup>10</sup>
