HIPAA 5010 - Health Care Eligibility Benefit Inquiry and Response: 270/271 Standard Companion Guide

Instructions related to Transactions based on ASC X12 Implementation Guide version 005010X279 and the ERRATA 005010X279A1 dated June 2010

270/271 Companion Guide Version Number: 1.0

February 2011

Preface

Companion Guides (CG) may contain two types of data, instructions for electronic communications with the publishing entity (Communications/Connectivity Instructions) and supplemental information for creating transactions for the publishing entity while ensuring compliance with the associated ASC X12 IG (Transaction Instructions). Either the Communications/Connectivity component or the Transaction Instruction component must be included in every CG. The components may be published as separate documents or as a single document.

The Communications/Connectivity component is included in the CG when the publishing entity wants to convey the information needed to commence and maintain communication exchange.

The Transaction Instruction component is included in the CG when the publishing entity wants to clarify the IG instructions for submission of specific electronic transactions. The Transaction Instruction component content is limited by ASCX12's copyrights and Fair Use statement.

Transaction Instruction (TI)

1 TI Introduction

1.1 Background

1.1.1 Overview of HIPAA Legislation

The Health Insurance Portability and Accountability Act (HIPAA) of 1996 carries provisions for administrative simplification. This requires the Secretary of the Department of Health and Human Services (HHS) to adopt standards to support the electronic exchange of administrative and financial health care transactions primarily between health care providers and plans. HIPAA directs the Secretary to adopt standards for transactions to enable health information to be exchanged electronically and to adopt specifications for implementing each standard HIPAA serves to:

- Create better access to health insurance
- Limit fraud and abuse
- Reduce administrative costs

1.1.2 Compliance according to HIPAA

The HIPAA regulations at 45 CFR 162.915 require that covered entities not enter into a trading partner agreement that would do any of the following:

- Change the definition, data condition, or use of a data element or segment in a standard.
- Add any data elements or segments to the maximum defined data set.
- Use any code or data elements that are marked “not used” in the standard’s implementation specifications or are not in the standard’s implementation specification(s).
- Change the meaning or intent of the standard’s implementation specification(s).

1.1.3 Compliance according to ASC X12

ASC X12 requirements include specific restrictions that prohibit trading partners from:

- Modifying any defining, explanatory, or clarifying content contained in the implementation guide.
- Modifying any requirement contained in the implementation guide.

1.2 Intended Use

The Transaction Instruction component of this companion guide must be used in conjunction with the ASC X12 version 005010X279 Health Care Eligibility Benefit Inquiry and Response (270/271) Implementation Guide and ASC X12 version 005010X279A1 Health Care Eligibility Benefit Inquiry and Response (270/271) ERRATA dated June 2010. The instructions in this companion guide are not intended to be stand-alone requirements documents. This companion guide conforms to all the requirements of any associated ASC X12 Implementation Guide and is in conformance with ASC X12's Fair Use and Copyright statements.

2 Included ASC X12 Implementation Guides

This table lists the X12N Implementation Guides for which specific transaction Instructions apply and which are included in Section 3 of this document.

4.1Business Scenarios

How to submit Recipient Eligibility Inquiry

The Department offers the ability to perform Direct Data Entry (DDE), real-time, and batch eligibility inquiries. Inquiries can be performed using the Medical Electronic Data Interchange (MEDI), or the Recipient Eligibility Verification (REV) system.

The MEDI web site, http://www.myhfs.com/ allows enrolled providers and their agents the ability to use DDE or to submit a 270 transaction to inquire upon eligibility information.

The REV system allows authorized vendors a means to submit 270 transactions on behalf of providers. More information on the REV system and the REV vendors is available at https://www.illinois.gov/hfs/MedicalProviders/rev/Pages/default.aspx

The MEDI and the REV systems are available 24 hours a day, 7 days a week.

Grouping and Processing

The REV and MEDI systems offer a mechanism by which a single Recipient Eligibility Inquiry request can be processed and returned in a real-time mode. Under normal conditions, the response to any real-time inquiry will return in a matter of seconds. A single Recipient Eligibility Inquiry request, also referred to as a real-time request, is defined as a single transaction. For real-time, if additional transactions are sent, HFS will process only the first transaction and ignore all others. Additionally, the MEDI IEC system will offer a mechanism whereby 270 X12 formatted transactions will be processed in a batch mode. For batch, multiple transactions are acceptable. Batch transactions will be accumulated throughout the day and under normal conditions, the response will occur within 24 hours.

Eligibility Information

The Department's medical cards contain the Recipient Identification Number (RIN) for each participant. If the participant has their card or if the RIN is known, it should be submitted for all transactions.

If the participant's RIN is not known or is not available, providers may use any combination of the following two sources of identification to inquire on a participant's eligibility: Participant's Name (First and Last Name), Social Security Number and/or Date of Birth.

4.2Payer Specific Business Rules and Limitations

This section contains information relating to transmitting information to the Department. This section will identify, down to the data element level, anything unique to the Department in regards to the EDI transaction.

Transmission Information

The Department will continue to support its Recipient Eligibility Verification (REV) system. The REV system allows authorized Vendors a means to submit and receive electronic transactions, on behalf of Providers, for processing. The Department will also support a Medicaid Electronic Data Interchange (MEDI) system whereby authorized Providers and their agents can submit and receive electronic transactions via the Internet.

EDI Information

The Department has identified, down to the data element level, anything unique to our processing requirements in regards to the various EDI transactions. This document will identify only those things that the Department requires that are not clearly identified in the Implementation Guide.

Listed below are guidelines to follow when transmitting real time information to the Department.

1. A transmission (ISA/IEA) must contain only one functional group (GS/GE) with only one transaction set (ST/SE). Any loop occurrences over one will be ignored.

2. The Department will only process the first occurrence of the following loops.

Any loop occurrences over one will be ignored.

"HL" (Information Source Level) segment for Loop 2000A

"HL" (Information Receiver Level) segment for Loop 2000B

"HL" (Subscriber Level) segment for Loop 2000C
"EQ" (Subscriber Eligibility or Benefit Inquiry Information) for Loop 2110C
"DTP" (Subscriber Eligibility/Benefit Date) for Loop 2110C

3. For purposes of 270/271 processing, HFS considers the subscriber to always be the patient. HFS will only use subscriber level information in its processing. All dependent level data that pass translator edits will be ignored.

4.3 Special Messages

This section contains information relating to copayment messages found in Loop 2110C MSG segment on page 13. The first two characters following the *SEE COMPANION GUIDE MESSAGE* designate the co-payment message number and the second set of two characters (if displayed) designate the participant's Title (eligibility) information, which will be either a 19 (Title XIX), 21 (Title XXI), or SF (State Funded).
