**Re: Sanction Lifted for HealthCura ACE Contract #2014-24-002**

Dear Ms. Thompson,

This letter serves as formal notification that the sanction of suspension of auto-assignment imposed on HealthCura in the Notice of Noncompliance sent to you on December 23, 2014 was lifted by the Department on February 18, 2015. This action was taken after thorough review by the Department and its External Quality Review Organization of the documentation provided by HealthCura in response to the non-compliance letter. During that review, it was determined that HealthCura was in compliance with all of the Department's requests. As discussed following the review, the Department has continued to monitor the staffing model for Care Coordination to ensure continued compliance with Section 5.7.5.1 of the ACE contract and found no outstanding concerns.

Thank you for your extensive cooperation during the non-compliance review process. We appreciate the ongoing partnership and continued commitment to improve the quality of care for the beneficiaries we both serve.

Sincerely,

Robert Mendonsa, Deputy Administrator  
Healthcare & Family Services
