III. HFS Status Update on Recommendations

- a. No Updates from HFS

IV. Updated Reference Guide

- a. University of Kentucky shared an updated draft reference guide.
 - i. Wording on action levels worded slightly different
 - ii. Updated age ranges to Praed Approved age ranges
 - 1. Updated Age ranges: 0-5; 6-20; 21+
 - iii. Moved modules to right after the trigger items
 - iv. Added age specific language where needed
 - v. Added items for the Substance Abuse Module to make it align with the ASAM criteria

V. Tool Updates Discussion

- a. Started conversation on Section 10: Needs/Resources Assessment
 - i. Discussed the purpose of the Mental Health check box. The group recommended removing the box, as it is duplicative of the IM+CANS in general.
 - ii. Suggested adjusting the language of the Physical Health check box to medical needs, as physical health is too broad of a category that can encompass many different aspects of health.
 - iii. It was suggested that the box be moved to closer to the treatment plan and be used as a referral/linkage list for suggested referrals and needed follow-up. It was also suggested to transition the check boxes to a text box with prompts for referrals/follow-up.
- b. Moved on to discussing Section 11: Diagnosis

- i. It was asked if providers could add only DSM 5 or ICD 10 codes, not both.
 - 1. HFS indicated that HFS can look and see if both are needed and get clarification on requirements.
- ii. Workgroup recommends keeping just one of the options
- c. Moved on to Discussing Section 12: Mental Health Assessment Summary
 - i. Workgroup members indicated that their agencies typically use Section 12 to document why the client needs services from their agency, or to document progress or lack of progress in services.
 - ii. HFS indicated that this to document the key points to establish medical necessity such as functional impairment, etc for recommended services
 - iii. HFS indicated they would propose some updated language for the prompt in Section 12.
