

Exhibit A:
Proposed
Settlement Agreement

issued to the Plaintiffs, which granted or denied prior approval for in-home shift nursing services, were deficient under the Medicaid Act and due process standards.

3. On May 4, 2016, the Court certified a class under FRCP 23(b)(2) defined as “[a]ll Medicaid-enrolled children under the age of 21 in the State of Illinois, including children who are enrolled in a Medicaid waiver program, who received in-home shift nursing services or applied for in-home shift nursing services and received notices from the Illinois Department of Healthcare and Family Services that their requests for in-home shift nursing services had been denied, or reduced, or approved at a lower level than requested, or terminated by the Illinois Department of Healthcare and Family Services on or after January 1, 2014.”

4. Also on May 4, 2016, after finding that Plaintiffs had demonstrated a reasonable likelihood of success on the merits of their due process claims because: (1) the defendant’s new process for reviewing medical need and granting prior approval for in-home shift nursing services lacked ascertainable, non-arbitrary, standards, and (2) the defendants’ accompanying notices under this process were inadequate, the Court entered a preliminary injunction that ordered as follows:

- a. Pending further order of this court, Defendant shall restore any in-home skilled nursing services to the plaintiffs and class members that were denied, reduced, lowered, or terminated on or after January 1, 2014; and
- b. Pending further order of this court, Defendant shall not reduce, lower, or terminate any in-home skilled nursing services to plaintiffs and class members without demonstrating to this court, by notice and motion that it has complied with due process of law.

5. The Parties desire to resolve this matter amicably and without going to trial. Without conceding any infirmity in their claims or defenses, the Parties have engaged in arms-length settlement negotiations to resolve the claims raised by this action as set forth in Plaintiffs' Second Amended Complaint. Plaintiffs and Defendant have reached an agreement for settling this litigation that the Parties believe is fair, reasonable, and adequate to protect the interests of all Parties.

6. By entering into this Settlement Agreement, Defendant does not admit to any liability, fault, wrongdoing, or violation of law regarding the allegations made in this action or any other actions resolved herein. No part of this Settlement Agreement may be used as evidence of Defendant's liability, fault, wrongdoing, or violation of law in this or any other legal proceeding.

7. The Parties will file this Settlement Agreement with the Court, and ask that the Court approve it. Court approval is a condition precedent to the Settlement Agreement becoming effective and binding on the Parties.

THEREFORE, based upon the foregoing, and the Court being otherwise fully advised, the parties agree as follows:

AGREEMENT

D. OBLIGATIONS

10. As provided in this Settlement Agreement, Defendant shall revise her processes for reviewing medical necessity and making prior approval decisions for in-home shift nursing services to Medicaid-eligible children under the age of 21.

11. Nothing in this Settlement Agreement shall require or authorize any particular service to be covered or made available to any Class Member if such service is beyond the federal EPSDT provisions of the Medicaid Act. This Settlement Agreement shall not override or supersede applicable law, and nothing in this Settlement Agreement shall require the provision of any type of service.

12. This Settlement Agreement shall not dictate how Defendant shall otherwise operate or fund the State's Medical Assistance programs or State Plan beyond the obligations specifically set forth herein with regard to the Class.

13. Services provided pursuant to the Defendant's prior approval shall be based an assessment of medical necessity, consistent with applicable law.

14. Defendant shall use the templates substantially similar to those attached as Exhibit A to this Settlement Agreement to provide notice of prior approval decisions on in-home shift nursing services to Plaintiffs and Class Members.

- a. Defendant shall submit any future, proposed revisions to Class Counsel at least 30 days prior to adopting the revised form. Within 14 days, Class Counsel may object in writing to the proposed revisions solely on the basis of the form's compliance with due process, 42 C.F.R. 431.210(a)-(e), or 42 C.F.R. 438.404(b) and provide a detailed explanation of the reason for the objection together with suggested alternative language.
- b. Defendant shall meet and confer with Class Counsel regarding any objection and attempt to resolve any disputes by agreement. If a dispute cannot be resolved, the parties shall bring the matter to the court for resolution.

- c. If no objection is made by Class Counsel after 14 days, Defendant may adopt and implement the revised template 30 days after it was initially submitted to Class Counsel.
 - d. Upon reviewing any proposed substantial revisions to the templates, Class Counsel may, within 14 days after the proposed revision is provided, suggest language, revisions, or clarifications to the template from that do not rise to the level of a formal objection related to compliance with due process, 42 C.F.R. § 431.210(a)–(e) or 42 C.F.R. § 438.404(b). The Defendant shall take these revisions under advisement and attempt to work collaboratively with Class Counsel to address their suggestions.
15. Defendant shall revise its existing processes for reviewing medical necessity and granting prior approval for in-home shift nursing services as provided below:
- a. HFS’s reviews of the medical necessity of in-home shift nursing requests for determinations of prior approval of in-home shift nursing services for Class Members shall be done by one or more Illinois-licensed physicians experienced in pediatrics (“reviewing physician”).
 - b. The reviewing physician shall make reasonable efforts to obtain information relevant to the current assessment of medical necessity of in-home shift nursing from appropriate medical and other necessary sources unless the documentation reviewed by the reviewing physician is sufficient for approval of the amount and scope of requested nursing services.
 - c. The reviewing physician shall review all documentation submitted on behalf of the child by the Family or Guardian, the child’s treating physician, and care

coordinators in support of the particular request for prior approval for in-home shift nursing services, and any additional documentation or information obtained as a result of the reviewing physician's consultation with the treating physician or other medical professionals. The reviewing physician shall have the authority to speak or consult with the child's treating physician and with any other medical professionals that the reviewing physician or treating physician deems appropriate.

- d. Based on the information reviewed by the reviewing physician, the reviewing physician shall make a written recommendation that identifies the hours of skilled in-home shift nursing to be allocated to the child and the reasons for that recommendation.
- e. After the reviewing physician provides his or her recommendation, the Department shall promptly issue a notice of the decision, using the notice templates authorized under this agreement. If the Family or Guardian is dissatisfied with the recommendation of the reviewing physician described in the notice, the Family or Guardian may appeal the decision through existing administrative appeal processes and, if appropriate, seek judicial review of any final administrative decision in accordance with state law.
- f. Defendant's processes for reviewing medical necessity and granting prior approval for in-home shift nursing services shall focus on meeting the child's identified clinical needs for skilled nursing interventions based on available relevant evidence, including but not limited to evidence and opinion provided by the Class Member's treating physician in support of any request for in-home shift

nursing. Medical necessity of skilled nursing services shall not be based upon a particular medical diagnosis.

- g. Nothing in this Settlement Agreement shall prohibit Defendant from adjusting the level of approved skilled in-home shift nursing to account for nursing that is paid for by insurers for the child to the extent those insurers cover services included in this Decree. To the extent that services for Class Members are provided and paid for by school districts while class members are attending school, those service hours may only be subtracted from the Class Member's in-home shift nursing services hours if the services provided by the school district were included in the prior approval determination made by the Defendant and those nursing hours would have been included in the Class Member's in-home shift nursing had the Class Member been at home instead of at school.
- h. Defendant shall incorporate into introductory program materials provided to parents a reference to the current process to determine when to grant (i) a temporary increase to the prior authorization resource allocation; or (ii) an upward adjustment of the resource allocation or budget based on changes in needs of a Class Member.

16. Defendant shall publish any manuals, guides, standards, forms, professional or other guidance documents, scoring methodologies, and resource allocation ranges related to the Department's process or the processes used by any entities with whom the Defendant contracts to perform such actions for reviewing medical necessity and granting prior approval for in-home shift nursing services to children under the age of 21. The publication shall be in the formats

used to make such information available to the general public, including by posting it on the Department's web page.

17. Defendant may establish operational policies and structures necessary to implement this Settlement Agreement, including but not limited to financial and budgeting matters, funding mechanisms, and interagency coordination of services.

18. If Defendant utilizes or contracts with MCOs or other entities to conduct prior approvals of in-home shift nursing services, Defendant shall ensure any such entities substantially comply with the terms of this Settlement Agreement. To the extent any contract with an MCO requires compliance with consent decrees but does not similarly refer to settlement agreements that resolve federal class actions, this Settlement Agreement shall be understood to have the meaning and effect of a "consent decree" for the sole and limited purpose of any MCO's contractual obligation to comply with consent decrees.

19. Defendant shall submit any proposed substantial revisions to the process described in this Settlement Agreement, whether proposed by the Defendant or by any entities with whom the Defendant contracts to perform such actions, to Class Counsel solely for review of compliance with this Settlement Agreement.

- a. Defendant shall submit proposed revisions to Class Counsel at least 60 days prior to adopting the revised process. Within 30 days, Class Counsel may object in writing to the proposed revisions and provide a detailed explanation of the reason for the objection. Defendant shall meet and confer with Class Counsel regarding any objection and attempt to resolve any disputes by agreement. If a dispute cannot be resolved, the parties shall bring the matter to the court for resolution.

- b. If no objection is made by Class Counsel after 30 days, Defendant may adopt and implement the revised process 60 days after it was initially submitted to Class Counsel.
- c. Upon reviewing any proposed substantial revisions to the process, Class Counsel may, within 30 days after the proposed revision is provided, suggest language, revisions, or clarifications to the process from that do not rise to the level of a formal objection. The Defendant shall take these revisions under advisement and attempt to work collaboratively with Class Counsel to address their suggestion.

20. Nothing in this Settlement Agreement shall prohibit Defendant from engaging, consulting, collaborating with, or utilizing contractors, including MCOs, or other state or government entities as she determines necessary to: (a) design, review, coordinate, or manage the development of any obligation in this Settlement Agreement; (b) provide planning, education, outreach, training, analysis, and technical support or advice to Defendant, other state entities, providers, or contractors; (c) provide, coordinate, or manage care or services to Class Members; or (d) implement any programmatic activity related to an obligation under this Settlement Agreement. Defendant's use of contractors, subcontractors, or other government entities shall not relieve Defendant of her obligation to comply with the terms of this Settlement Agreement and ensure the compliance of contractors, subcontractors, or government entities with this Settlement Agreement.

21. The duties or responsibilities delegated by the Defendant to another entity shall be performed consistent with Defendant's obligations under this Settlement Agreement; provided, however, that the inclusion of other state agencies or government entities in this paragraph neither binds those agencies to this Settlement Agreement's obligations nor relieves Defendant

of her obligations under this Settlement Agreement. This Settlement Agreement does not require the use of any particular federal funding mechanism, and nothing in this Settlement Agreement requires that payment for any service be made out of any particular state agency or entity budget or appropriation.

22. Every six months until the termination of the Settlement Agreement, Defendant shall provide Class Counsel a report on the disposition of prior approvals for in-home shift nursing to all Class Members.

- a. Each report shall include the number of requests for and redeterminations of prior approvals for in-home shift nursing for Class Members.
- b. Each report shall also provide the number of prior approvals granted, denied, approved at a lower level than requested, appealed, and the outcome of any appeal.
- c. Class Counsel may request such additional information from Defendant that is available, ascertainable, and reasonably necessary for them to assess Defendant's compliance with this Agreement. If the parties cannot resolve disputes regarding the semi-annual reports or requests for additional information, then they may seek relief from the Court.

E. ADDRESSING CLASS MEMBERS PENDING FINAL APPROVAL OF SETTLEMENT AGREEMENT

23. On the Approval Date, all orders, including but not limited to the prior Temporary Restraining Orders ("TROs") and the Preliminary Injunction ("PI"), issued against Defendant in this case shall be dissolved.

24. Defendant shall maintain any in-home skilled nursing services that were restored due to TROs and the PI entered in this case prior to their dissolution and shall not reduce, lower,

or terminate any in-home skilled nursing services to Plaintiffs or Class Members until the Settlement Agreement is finalized.

F. DISPUTE RESOLUTION.

25. In the event that Class Counsel believes that Defendant is not materially complying with the terms of the Settlement Agreement, Class Counsel shall provide written notice to Defendant of Defendant's alleged material non-compliance. Defendant shall respond in writing within 30 days of receipt of Class Counsel's notification of a claim of non-compliance. Class Counsel shall advise Defendant of their acceptance or rejection of Defendant's response within 7 business days of their receipt of Defendant's response. If rejected, the Parties shall meet within 14 days to discuss and attempt to resolve any matter addressed in the written submissions in good faith. At the end of negotiations, the parties shall create a document that sets forth the issue(s) in dispute as well as resolution, or if there was no resolution, the respective positions of the parties. If the Parties are not successful in their efforts to resolve the matter, they may jointly or individually seek intervention from the Court for the purpose of effecting compliance with the provisions specified in the written submissions. The parties may agree in writing to modify the timelines in this paragraph to accommodate appropriate inquiry, review, and resolution of a compliance matter before seeking court resolution.

26. If Class Counsel seeks intervention by the Court, Class Counsel may move the Court for an order for compliance with the Settlement Agreement. If Class Counsel later contend that Defendant has not materially complied with the Court's compliance order, Class Counsel may move the Court for further relief to enforce compliance, including requesting an order to show cause why the Defendant should not be held in civil contempt. Class Counsel will not seek

an order to show cause without first meeting and conferring with Defendant's counsel in a good faith effort to resolve the dispute.

27. Non-compliance with this Settlement Agreement shall not be interpreted or understood to encompass individual challenges to the sufficiency, amount, medical necessity of, or result of any prior approval for in-home shift nursing services. All individual challenges to the sufficiency, amount, medical necessity of, or result of any prior approval for in-home nursing services must proceed through existing state processes for administrative appeal and judicial review.

G. ATTORNEYS' FEES AND COSTS

28. On behalf of Defendant, the State of Illinois agrees to pay to Class Counsel the sum of \$550,000 in full settlement of all of Plaintiffs' claims for attorneys' fees and costs associated with this litigation. Such amounts shall be distributed to Class Counsel in the manner agreed to by the Parties. Such amounts shall be set forth in a Judgment Order to be entered by the Court. Defendant shall complete and submit all paperwork necessary for payment of such amounts within five business days after expiration of the time to appeal the fee award without the filing of a Notice to Appeal or after the issuance of the mandate by the highest reviewing court, whichever is later. Neither Class Counsel nor any former attorney representing the named Plaintiffs or Class Members shall seek additional or future attorneys' fees or costs beyond those agreed to in this paragraph, including but not limited to any that may be related to any future implementation, enforcement, compliance, or other work associated with litigation and settlement of matters related to the *M.A. v. Bellock* class action, with the exception that plaintiffs

may seek additional attorney fees and costs limited to a prevailing action pursuant to paragraph 26 of this Settlement Agreement.

H. MISCELLANEOUS PROVISIONS

29. This Settlement Agreement applies to all Named Plaintiffs and Class Members and fully resolves all claims for any form of relief that have been or could have been raised by or on behalf of the Named Plaintiffs and Class Members relating to the subject of this action.

30. The Parties agree to use their best efforts to carry out the terms of this Settlement Agreement. At no time shall any of the Parties or their counsel seek to solicit or otherwise advise the Class Members to submit objections to this Settlement Agreement or to appeal from the order giving final approval to this Settlement Agreement.

31. This Settlement Agreement supersedes all prior agreements, representations, negotiations, or positions taken by the Parties in this litigation and contains all the terms and conditions agreed upon by the Parties. No other agreement regarding the subject matter of this proceeding shall be deemed to exist, or to bind the Parties, or vary the terms and conditions expressly contained in this Settlement Agreement.

32. The Parties jointly participated in the drafting of this Settlement Agreement. Any ambiguity shall not be construed for or against either Party.

33. This Settlement Agreement may not be amended, modified, or supplemented except by an agreement in writing signed by the Parties and approved by the Court.

34. This Settlement Agreement shall inure to the benefit of and be binding upon the legal representatives of any successor of the Plaintiffs and Defendant.

35. The cost of all notices required by this Settlement Agreement or otherwise ordered by the Court shall be borne by Defendant.

36. Each undersigned representative of Defendant and the Attorney General for the State of Illinois certifies that he or she is authorized to enter into this Settlement Agreement and to execute and bind legally Defendant to its terms. Each undersigned representative of the Class certifies that he or she is authorized to enter into this Settlement Agreement and to execute and bind legally the Class Members to its terms. Execution of this Settlement Agreement by signature is a condition precedent to the Settlement Agreement becoming effective and binding on the Parties. This Settlement Agreement may be executed in counterparts, each of which will be deemed to be an original and all of which taken together shall constitute a single instrument. A signature copied to a PDF and transmitted by electronic mail shall be deemed the same as an original signature.

37. Upon approval of this Settlement Agreement, the Court will enter judgment dismissing this action without prejudice. The judgement will order the dissolution of all TROs and the Preliminary Injunction Order in accordance with Paragraph 23 and incorporate by reference the terms of the Settlement Agreement.

38. The Court will retain jurisdiction to enforce the terms of the Settlement Agreement and to provide a forum to address issues of compliance and performance of the terms of the settlement. To permit enforcement of the terms of this Settlement Agreement, the Parties agree that, should it become necessary to seek Court assistance as to enforcement of the Settlement Agreement, any order granting such relief must include a finding that the relief sought is narrowly drawn, extends no further than is necessary, and is the least intrusive means for doing so

39. This Settlement Agreement resolves and provides the sole and exclusive remedy for all claims and issues arising from this action that were raised or could have been raised by the

Class certified by the Court. Defendant shall have no duties or obligations to Plaintiffs or Class Members for claims and issues arising from this action beyond the terms of this Settlement Agreement.

40. This Settlement Agreement shall remain in effect until it is terminated pursuant to Section I, at which point this case shall be dismissed with prejudice.

I. TERMINATION

41. The Parties, jointly or severally, may file a motion requesting termination of this Settlement Agreement at any time after three years following the Approval Date, unless the basis for termination is an intervening change in circumstances, including but not limited to a change in law or legal precedent, relating to the underlying legal bases of the preceding litigation or Settlement Agreement. A motion seeking to modify or terminate this Settlement Agreement due to a change in law or legal precedent may be brought at any time.

42. This Settlement Agreement shall be terminated, as permitted in paragraph 41, pursuant to a motion by the Parties if the Court finds that Defendant has complied with the terms of this Settlement Agreement.

43. Notwithstanding paragraphs 41 and 42, this Settlement Agreement shall terminate after five years, and the case shall be dismissed with prejudice, unless the Court finds after motion of the Class Counsel, that the Defendant is substantially out of compliance with the specific terms this Settlement Agreement. If the Court finds that the Defendant is substantially out of compliance, the Court may extend this agreement up to two years.

EACH UNDERSIGNED PARTY enters into this Settlement Agreement in the matter of *M.A., et al. v. Bellock*, Case No. 15-3116, pending in the United States District Court for the Northern District of Illinois, Eastern Division.
