

OSF<sup>®</sup>  
HEALTHCARE

## MISSION

In the spirit of Christ and the example of Francis of Assisi, the Mission of OSF Healthcare is to serve persons with the greatest care and love in a community that celebrates the gift of life.

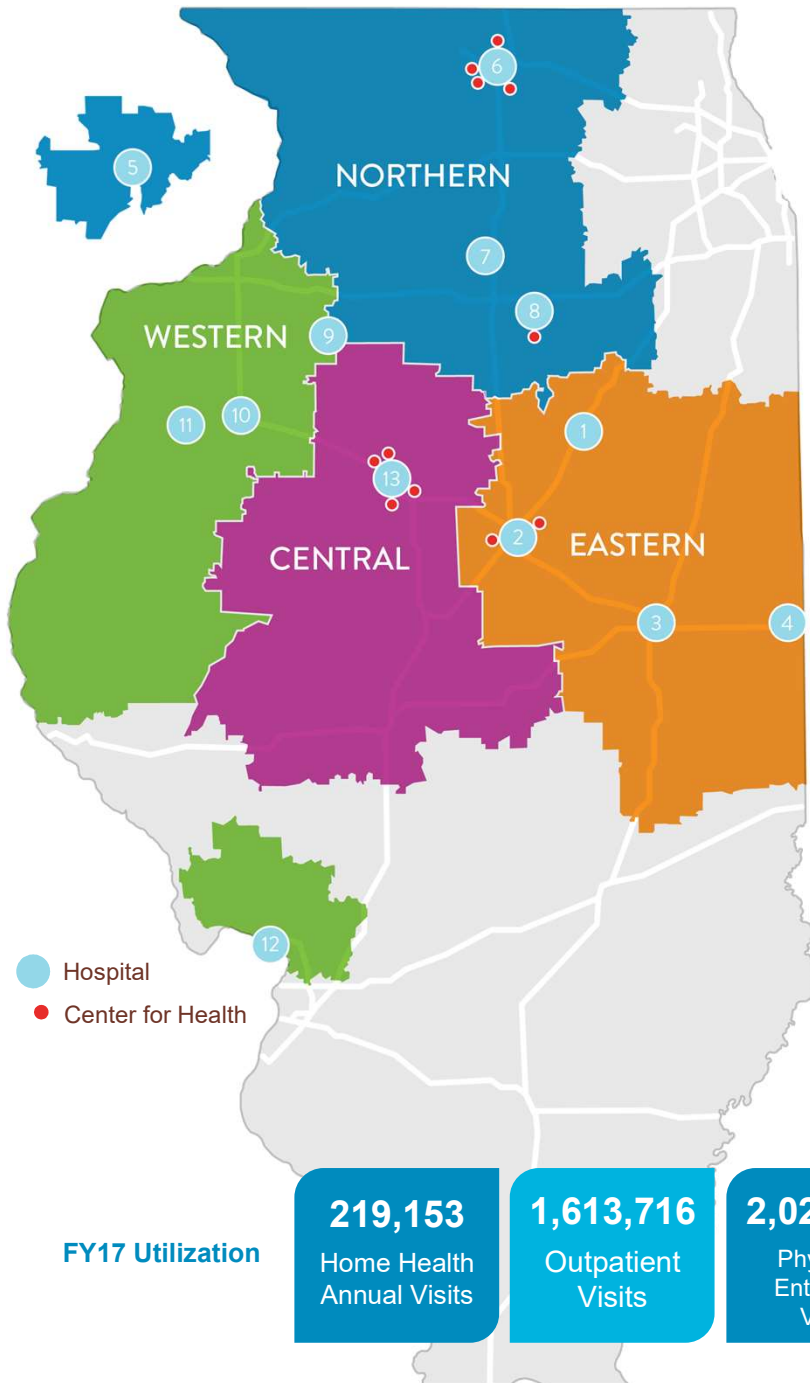

## VISION

Embracing God's great gift of life, we are one OSF ministry transforming health care to improve the lives of those we serve.

## INNOVATE

Design *the* Future

# Innovation as a Strategic Imperative

- Proactively positioning for industry disruption
- Promoting a shift in mindset toward agility, quickness, curiosity and creativity

## We are focusing on four innovation priority areas

Clear focus and direction are essential for successful innovation. We have four focus areas of innovation for our Mission Partners, external partners, and innovators. These areas guide our investments and activities in innovation, ensuring they serve the most important needs of our community. These four areas demand innovation; we will not advance our Mission here without it.

---

### Advancing Simulation

*How can OSF use simulation beyond education to transform health care?*

---

### Aging in Place

*How can OSF deliver care to the elderly without disrupting where and how they live?*

---

### More for Those with Less

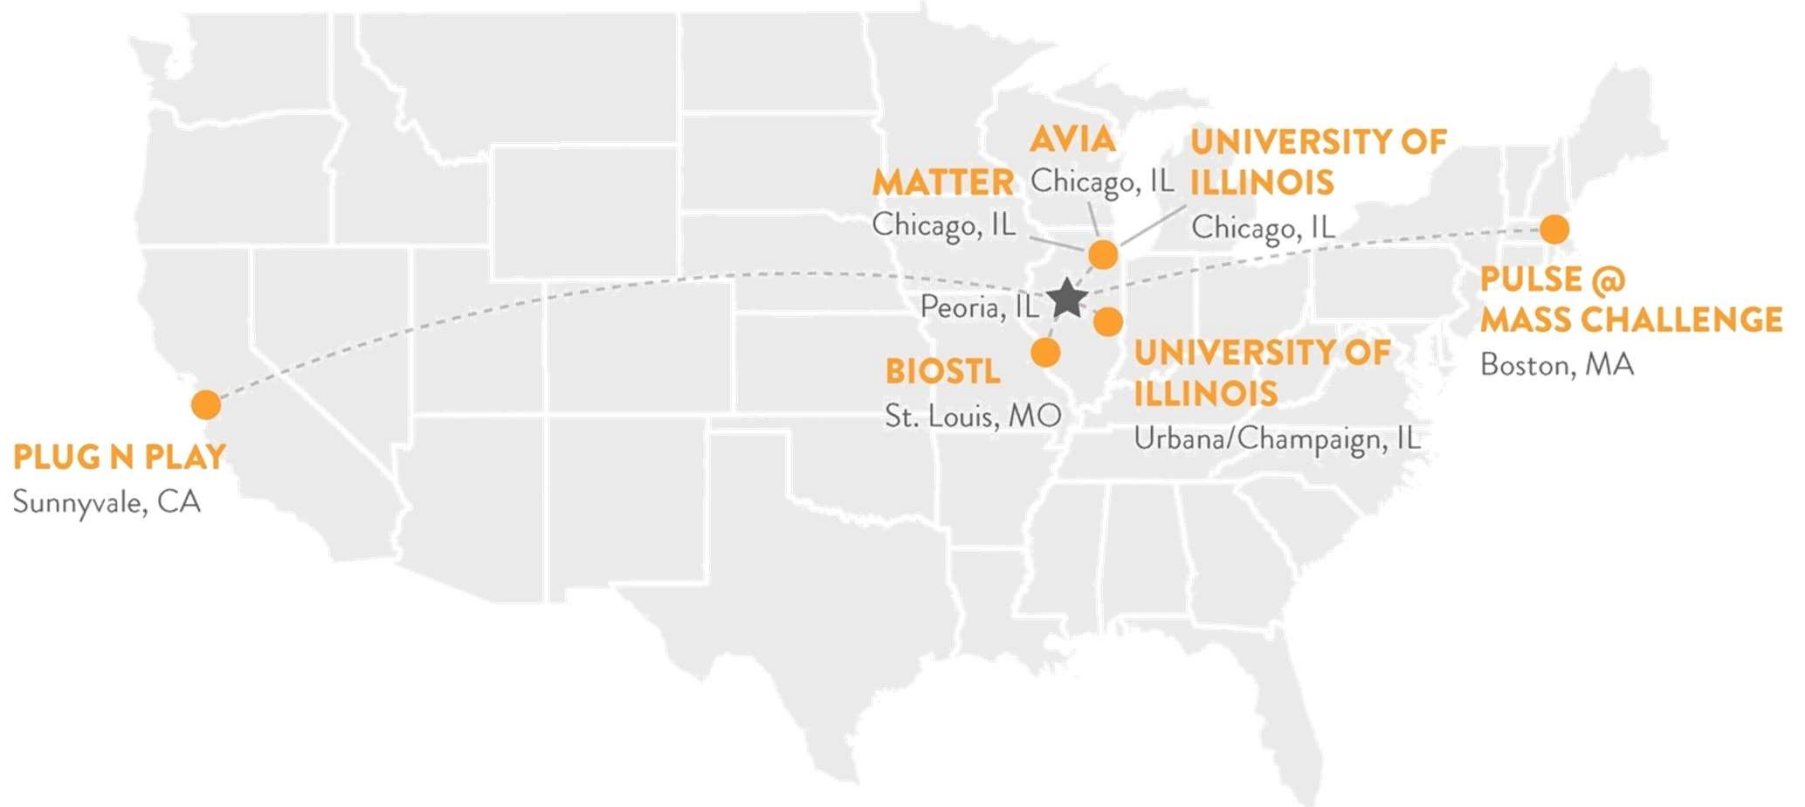

*How can OSF best serve its most disadvantaged populations?*

---

### Radical Access to Care

*How can OSF radically democratize access to care, regardless of setting or context?*

# Rural Health Strategy

## Why do we need a strategy?

- 16% of the U.S. population is rural while 75% of the total U.S. land area is rural
- 24% of rural residents can reach a Level I or Level II trauma center within an hour
- 60% of all trauma deaths in the U.S. occur in rural areas
- 77% of rural U.S. counties are designated as health professional shortage areas
- Nearly 30% of rural primary care practitioners are at or nearing retirement age, while younger practitioners (those under age 40) account for only 20% of the current workforce
- 11% of physicians practice in rural America despite the fact that nearly one-fifth of the population lives in these areas

## Top 10 Rural Health Care Reform Issues

1. An economy based on self-employment and small businesses
2. Public health insurance plans: dependence and need
3. A stressed health care delivery system
4. Health care provider and workforce shortage
5. An aging rural population
6. A sicker, more at-risk population
7. Need for preventive care, health and wellness resources
8. Lack of mental health services
9. Increasing dependence on technology
10. Effective emergency medical services

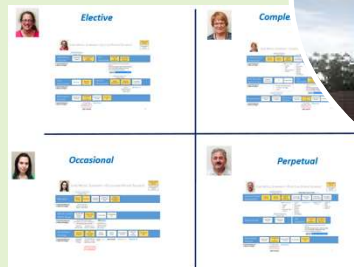

# “Health Village” Concept

## Broad range of ambulatory services

Primary care  
Laboratory services  
Emergency services  
Specialty care  
Diagnostic imaging  
Wellness

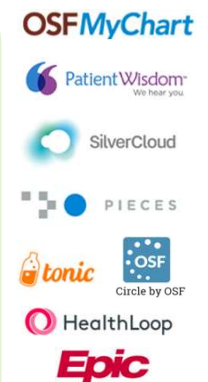

Cardiac services  
Rehabilitation services  
Urgent Care

## Various social service agencies and community resources

## Innovative Care Models

## Patient, provider and community enabling technology

# Streator Community Collaboration

## 3 Co-locators in the Center for Health:

- LaSalle County Health Department – WIC
- North Central Behavioral Health
- American Cancer Society – Resource Center

## Community Partners—Pieces Iris:

- A Servant's Heart
- ADV & SAS
- BEST, Inc.
- LaSalle County Health Department
- PADS Homeless Shelter
- Streator Elementary School
- Streator Township High School
- Streator Salvation Army
- Tri-County Opportunities Council
- YMCA (Streator & Ottawa)

# Live Well Streator

## Vision:

To inspire a strong, coordinated and engaged community that empowers residents to live healthier lifestyles by creating partnerships for healthy living, building awareness and providing resources, and coordinating healthy choice initiatives.

## Mission:

Partnering to create a sustainable movement that will support the improvement of the health, wellness, and strength of the community.

Where are  
we going next...

# Complex Solution Innovation

## Ideation

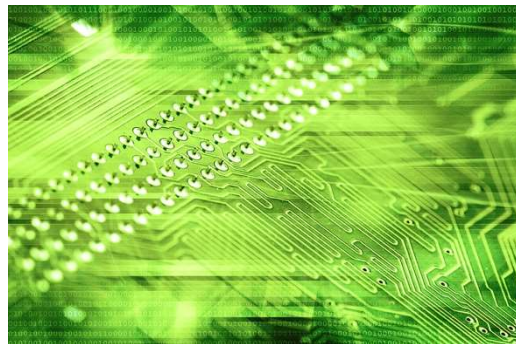

### University of Illinois Chicago

- OSF Innovation Lab – 12 doctoral students
- 2018-19 UIC Innovation course – 40 graduate level students
- **Focus:** Social Isolation & Social Connection

### Discovery Partners Institute

- 1st corporate partner
- \$500 million in capital funding, \$1.2 billion project
- Focus: Platform & Ideation Innovation Community Health Worker (iCHW)

## Digital Technology & Business Model

### Innovation Outposts

- Mental Health
- Food
- Transportation

## Support

### Community Health Worker Program

- Serve as patient care coordinator
- Build relationships
- Educate community
- Provide informal counselling, health screenings, referrals

# Digital Transformation

The profound transformation of business and organizational activities, processes, competencies and models to fully leverage the changes and opportunities of a mix of digital technologies.

**Clinically driven solutions** that will:

- improve quality
- increase safety
- drive productivity gains
- deliver outcomes at lower costs

**Meeting the needs of the modern patient who:**

- is highly connected
- demands both choice and control

# Saint Gabriel Initiative

Creating a new always-available, digitally-enabled remote care platform that provides what is needed so individuals can navigate the health and wellness journey.
