 January 2024: Medicaid Redeterminations

The data below represents the outcome of the January 2024 redeterminations, and illustrates the responses received during the original due date and the 30-day grace period flexibility that was provided to Illinois by federal CMS. The 30-day Grace Period Flexibility was implemented in June 2023 and will remain in place during the 12 Month PHE Unwinding Period: June 2023 - May 2024. This flexibility permits the delay of procedural terminations for one month (approx. 30 days) for customers who did not return their redetermination by their original due date.

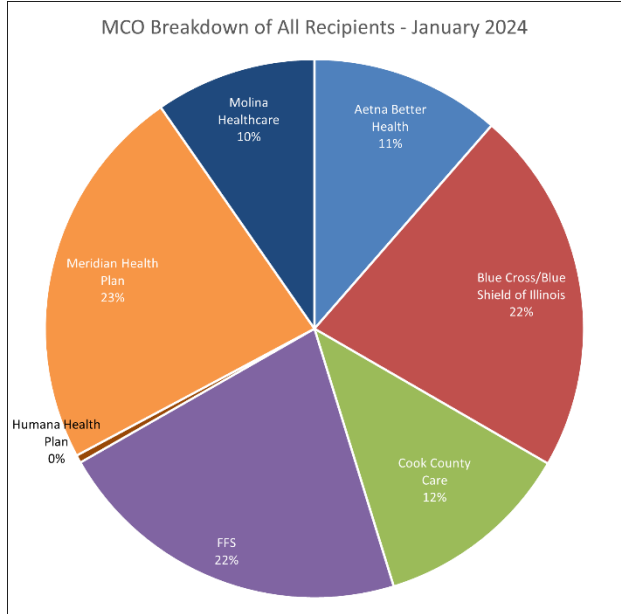

The chart to the left, 'Individuals who Received 30 Day Extension by Month', demonstrates 75% of Individuals due for REDE in January responded timely. 25% of individuals due in January were given an additional 30-days to respond.

The chart to the right, 'Rede Responses by Individual MCO Overall Progress – January 2024' represents redetermination responses by MCO during the initial redetermination due date, during the 30-day extension and 'No Responses' that were canceled after terminal entry, effective February 2024.
