MEMORANDUM

DATE: March 17, 2010

TO: Members of the Medicaid Advisory Committee

FROM: Theresa A. Eagleson, Administrator
Division of Medical Programs

RE: Medicaid Advisory Committee (MAC) Meeting

=====

The next meeting of the Medicaid Advisory Committee is scheduled for March 19, 2010. The meeting will be held via videoconference from 10 a.m. to 12 p.m. Those attending in Springfield will meet at 201 South Grand Avenue East, 3rd floor Video-conference Room B. Those attending in Chicago will meet at 401 South Clinton, 7th floor Video-conference Room.

The following meeting material has been posted to the department's Web site: the agenda for the November 20, 2009 meeting and the draft minutes/attachments from the March 20, 2009, May 15, 2009, July 17, 2009 and September 18, 2009 meetings. The draft minutes/attachments from the March 20th and May 15th meetings were distributed with the July 17th meeting material; the draft minutes/attachments from the July 17th meeting were distributed with the September 18th meeting material, and; the draft minutes/attachments from the September 18th meeting were distributed with the November 20th meeting material. All of these can be found at:

<http://www.hfs.illinois.gov/mac/news/2009.html>

The current meeting material has been sent to the committee members electronically. Interested parties can access the meeting information by going to: <http://www.hfs.illinois.gov/mac/> or <http://www.hfs.illinois.gov/mac/news/index.html>

In order to receive information on future MAC meetings, you will need to register to receive e-mail notification when information is posted to the MAC Web page. To register to receive the MAC e-mail notifications go to: <http://www.hfs.illinois.gov/mac/notify.html>

If you have any questions, or need to be reached during the meeting, please call 217-782-2570.

MEDICAID ADVISORY COMMITTEE

401 S. Clinton
7th Floor Video-conference Room
Chicago, Illinois
and
201 South Grand Avenue East
3rd Floor Video-conference Room
Springfield, Illinois

March 19, 2010
10 a.m. - 12 p.m.

AGENDA

- I. Call to Order
- II. Introductions
- III. Review of March 20, 2009, May 15, 2009, July 17, 2009, September 18, 2009 and November 20, 2009 Meeting Minutes
- IV. Administrator's Report
- V. Old Business
 - All Kids Update
 - PCCM Update
 - DM Update
 - Medicare Part D Update
- VI. New Business
 - 2010 Meeting Dates
 - Open to Committee
- VII. Subcommittee Reports
 - Long Term Care (LTC) Subcommittee – November & March Reports
 - Public Education Subcommittee – No report
 - Pharmacy Subcommittee – No report
- VIII. Adjournment

**Illinois Department of Healthcare and Family Services
Medicaid Advisory Committee
November 20, 2009**

401 S. Clinton Street, Chicago, Illinois
201 S. Grand Avenue East, Springfield, Illinois

Members Present

Myrtis Sullivan, DHS
Kathy Chan for Robyn Gabel, IMCHC
Karen Moredock, DCFS

Members Absent

Eli Pick, Chairman
Susan Hayes Gordon, Children's Memorial Hospital
Robert Anselmo, R.Ph.
John Shlofrock, Barton Management
Pedro A. Poma, M.D.
Kim Mitroka, Christopher Rural Health
Neil Winston, M.D.
Richard Perry, D.D.S.
Mary Driscoll, DPH

HFS Staff

James Parker
Tracy Keen
Eric Watson
Jamie Tripp
Gina Swehla
Amy Wallace
James Monk

Interested Parties

Andy Kane
Marvin Hazelwood
Andrea Kovach and Carrie Gilbert, Sargent Shriver
Lora McCurdy, Illinois Assoc. for Rehab. Facilities
Mike Lafond, Abbott
Mandy Ungrittanon, Quest Diagnostics
Robin Scott, Chicago DPH
Vince Champagne, DCFS
Deb Mathews, DSCC
Judy King
Mary Capetillo, Lilly

**Illinois Department of Healthcare and Family Services
Medicaid Advisory Committee
November 20, 2009**

I. Call to Order

Myrtis Sullivan called the meeting to order at 10:10 a.m.

II. Introductions

Attendees in Chicago and Springfield introduced themselves.

III. Review of the Minutes

The March, May, July and September minutes were not reviewed for lack of a quorum.

IV. Administrator's Report

James Parker, Deputy Administrator, Division of Medical Programs, provided the report.

Mr. Parker advised the committee that HFS posted an intent to issue a Request for Proposals on the procurement bulletin board to procure two HMOs (Health Maintenance Organizations) to provide an integrated care delivery system for a select geographic area in Northern Illinois. The target population under the RFP will be elderly or disabled adults that are not Medicare/Medicaid dual-eligible living in Lake, Du Page, Kane, Will and Kankakee counties and in Cook County outside the City of Chicago. The disabled population is defined as adults whom are categorically eligible for Aid to the Disabled with a category 93 case and are not eligible for Medicare as well. This group may include persons receiving mental health services, enrolled with the Department of Rehabilitation Services and adults covered under the State's Home and Community Based Services waiver programs.

The Federal CMS requires that two HMOs be offered to potential enrollees. The department has decided on geographic boundaries that allow for targeting 40,000 potential enrollees, with the anticipation that each HMO would cover about 20,000 persons. There would be a mandatory enrollment process similar to the process used under PCCM program. The HMOs will be responsible for managing all patient care services. The department is not advocating for any carve-out services, although there have been some discussions to carve out pharmacy services. However, the department believes that a healthcare bill will be passed by Congress and the bill would have prescription drugs included in the available services. If this happens there will be no "carve-out" for HMO pharmacy services

Mr. Parker stated that the State is seeing tough revenue times. Provider payment requests sent by HFS to the Comptroller's office go back as far as August 4, 2009. Without adequate funds, HFS requests may be held at the Comptroller's office for 90 days or more.

The State legislature passed SB1265, creating the Healthcare Provider Relief Fund, and although no funds are available as yet, we are hopeful this will have a positive impact on our providers. The department is also pursuing Federal match for medical services provided under the FamilyCare coverage. The department believes the State plan amendment for the Title XIX match for these services will be approved for an estimated service cost of about \$200 million. The department hopes to receive these matching funds in January or February 2010.

It was asked if there is a plan for payment for DD/MH (Developmental Disabilities/Mental Health) providers who had been forced to borrow from banks to continue services. Mr. Parker stated that he is not aware of any new borrowing plan to pay these providers.

**Illinois Department of Healthcare and Family Services
Medicaid Advisory Committee
November 20, 2009**

It was asked if there is any truth to rumors about budget cuts for the second half of FY10. Mr. Parker stated that all agencies received a letter from the Governor asking each to identify potential cuts. HFS identified cutting 3% of contractual payments. HFS reserving funds means paying slower. Mr. Parker added that reductions in the Drug Rebate Fund are on the table.

V. Old Business

All Kids and FamilyCare update. Enrollment statistics through September 30, 2009 were provided (Attachment 1 and 2). Tracy Keen, Manager, Central All Kids Unit, stated that application processing is at 32 days. Enrollment continues to grow. About 65% of applications come from families and about 35% from All Kids Application Agents (AKAAs).

Kathy Chan asked if numbers would be included for FamilyCare enrollment. Mr. Parker answered that there is some difficulty in defining enrollment under the HIPPA waiver and also the issue of defining and formatting the FamilyCare numbers. He stated that the department wants to get the numbers out but there is not a release date as yet.

Primary Care Case Management (PCCM) activity. Mr. Parker provided the update. Meeting participants received a handout (Attachment 3) showing the number of medical homes and client enrollments statewide as of November 14, 2009. There were no questions on the handout.

Mr. Parker advised that the rollout of the Primary Care Provider (PCP) edit has been activated in the Northwest region. The region was defined as North and West of Peoria to the state line. The edit affects only PCPs who see a patient that is not on their or their practices' panel. The claim will reject unless the PCP refers the patient. Billing from a specialist is not affected. The goal is to improve patient care management by having care directed through the PCP. The edit is scheduled to be activated for the Cook collar counties in December 2009, with Cook County following in February 2010 and the rest of the State in April 2010.

Disease Management (DM). No report for this period.

Medicare Part D. Eric Watson, a manager with the Illinois Cares Rx program, provided the report.

For the most part, the same coordinating Health Plan Providers participating in 2009 will again be participating in 2010. There will be changes in some plan offerings and some plans will no longer be coordinating. The biggest change is that Illinois Cares Rx (ICRx) members enrolled in AARP Medicare Rx Preferred and United Health Rx Basic will be moved to AARP Medicare Rx Saver for 2010. This will happen automatically and those members affected will not be required to do anything. Also, the Humana PDP Standard plan will no longer be offered and enrollees will automatically be transferred to Humana Value for 2010.

The last date for members to apply on-line for ICRx to begin in January 2010 is December 4, 2009. After this date there could be a break in coverage and a start date in February 2010.

Mr. Watson advised that effective January 1, 2010; all Medicare-eligible ICRx members would receive the comprehensive ICRx Plus benefit. Current Medicare-eligible ICRx Basic members

**Illinois Department of Healthcare and Family Services
Medicaid Advisory Committee
November 20, 2009**

will automatically be enrolled for the Plus benefit. This will affect about 20,000 enrollees. For members not eligible for Medicare, ICRx will continue to be divided into ICRx Plus and ICRx Basic. Members will be advised of this change in a mailing schedule to go out next week.

Co-payments for Medicare – eligible members in 2010 include \$2.50 for generic drugs; \$6.30 for preferred brand name drugs; and \$15 for non-preferred and specialty drugs.

Follow-up on Ethics Training. Staff from the Office of the HFS General Counsel was not available. Gina Swehla with the Bureau of Maternal and Child Health Promotion reported that the MAC Ethics Officer would be the HFS Chief Legal Counsel, Jeanette Badrov. Ms. Swehla advised that MAC members were to read the Ethics Training packet, sign and complete the last page “Acknowledgement of Participation” and send the signed page to the office of Mike Stehlin, Chief, Bureau of Training, no later than December 23, 2009.

VI. New Business

Dental Policy Meeting Update. Ms. Swehla provided the update. She advised that Deborah Saunders, Chief of the Bureau of Maternal & Child Health Promotion, was unable to attend today but wanted her to follow up on the request from the previous meeting for data on Early Periodic Screening, Diagnosis and Treatment (EPSDT) for children’s dental services. Meeting participants were provided two handouts that included a 2008 Annual EPSDT Participation Ratio Comparison of Illinois and Chicago (Attachment 4) and a Chicago Annual EPSDT Participation report (Attachment 5). The Chicago report was prepared using the CMS 416 format.

Ms. Swehla reviewed the reports. She stated that the under age one population is exclude from the analysis based on the American Academy of Pediatric Dentistry recommendation that dental services should begin at age one. Also on the second report, the abbreviations “CN” and “MN” stand for Categorically Needy and Medically Needy, respectively.

Ms. Swehla advised that the department has seen an increase in provider participation and access to services. As an example, she cited the Fluoride Varnish Program that trains pediatricians in Cook collar counties and Federal Qualified Health Centers (FQHCs) around the State to apply the varnish for younger children.

Vince Champagne asked if the State has done a study to see where the dental specialists are located. Ms. Swehla responded that the department does have data; however, getting specialists to enroll is hard. HFS has found that working with specialty groups like the Illinois Society of Orthodontia has been productive. She advised that the department continues to work with the Dental Champions Program in which Medicaid enrolled dentists encourage their peers to enroll as providers.

A meeting participant advised that she has heard that it is getting harder for developmentally disabled (DD) patients to reach a dentist and in one case a patient was brought from Vandalia to Chicago for service. Ms. Swehla advised that the department doesn’t pay for adult preventive dental services, but that Hope School in Springfield plans to expand and partner with Sangamon County Health Department to provide more DD dental services. She also noted that it is no longer true that dentists are not paid in a timely manner.

**Illinois Department of Healthcare and Family Services
Medicaid Advisory Committee
November 20, 2009**

Judy King stated that she was disappointed with HFS as review of the CMS form 416 report is not on the meeting agenda. She advised that she has come to several meetings when the report has not been discussed. Mr. Parker advised that the report may be discussed further at the next meeting.

Andrea Kovach asked if there was any feedback or upcoming changes discussed at the orthodontia meeting. Ms. Swehla stated there was discussion on the Salzmann Index as a standard for authorizing orthodontia services. At the current required index rating of 42, not many children qualify. Also, children under the DCFS children have different criteria and are eligible regardless of the Salzmann score.

Open to Committee

Mr. Champagne stated that he had recently seen a journal article from Columbia University that showed favorable data on the EPSDT participation rate for adolescents in Illinois compared to other states. Federal CMS data showed Illinois' participation rate at 67% compared to a national participation rate of 39%. The report may be found on the Internet at <http://www.teenscreen.org/policy-center>

Ms. Kovach asked if the PCCM subcommittee is still meeting, and if yes, what the next meeting date is. Ms. King asked if it possible to put subcommittee meeting schedule on the web? Mr. Parker recommended that Ms. Kovach contact Michelle Maher and believed the next meeting is December 3, 2009 at 10 am in the videoconference room. He advised that it should be possible to put the meeting schedule on the HFS website.

Mary Capetillo is interested in links about the Disease Management program outcomes and questioned if the information may be shared with the committee. Mr. Parker advised that the best resource is the Your HealthCare Plus website at <http://www.yhplus.com>. HFS also has information at <http://www.hfs.illinois.gov/dm>

Mr. Parker advised that HFS is considering a change in the MAC meeting schedule from every other month to once a quarter. It is hoped this change would improve member participation and is allowable under the MAC by-laws. The plan is to get a schedule out to MAC members and solicit feedback on the proposed change. Mr. Parker also stated that the Department would like to build the MAC membership, as members are lost through attrition and the by-laws limits the term of service. HFS is now looking for nominations for new members and would consider nominations from the meeting participants.

VII. Subcommittee Reports

Long Term Care (LTC) Mr. Parker advised that there was no one present to report on the last meeting but he would ask Kelly Cunningham to submit a report to be included in the minutes.

Public Education Subcommittee. No report for this period.

Pharmacy Subcommittee. No report for this period.

VIII. The meeting was adjourned at 11:45 a.m. The next meeting date to be announced.

All Kids Report

Enrollment

- Enrollment data is attached. Enrollment data as of 09/30/09:
 - a. 1,531,118 All Kids Assist (Up to 133% of FPL)
 - b. 74,545 All Kids Rebate, Share, Premium Level 1 (133% to 200% of FPL)
 - c. 72,333 All Kids expansion children

Web-based application capability

We implemented our web-based application statewide on August 11, 2005. Since then, we have received a total 226,219 web apps: 154,314 from the general public and 71,905 from AKAA's.
